Pre-K

HOLY ROSARY SCHOOL

Pre-Kindergarten Program

The Pre-Kindergarten is a state licensed program in an accredited school.

The Daily Routine....

Enhances social, emotional, intellectual, spiritual and physical growth.

Offers students the opportunity to enjoy a variety of teacher and student directed activities which aid in increasing overall independence and confidence.

Provides state approved healthy snacks for the class. All Day students eat lunch in the classroom followed by a nap/quiet time on individually assigned school cots.

"Mrs. Flugstad has created a classroom environment that is warm and nurturing. Her attention to academics, art and music is balanced with the perfect amount of free play and physical activity. Mrs. Flugstad's kind and tenacious approach to academics is pure magic." (Madath, 2012)

Our Program....

Helps guide children (age 4 by August 31st) to understand their role as student in the school community and introduce them to the joys of learning through play.

Provides an age-appropriate curriculum in a creative, stimulating and nurturing environment. This curriculum includes Spanish, Music, Math, Art and Literacy.

Our Staff....

Consists of two full-time teachers.

Our Director and Lead Teacher, Mrs. Alexandra Flugstad, has a Master in Teaching Degree from Whitworth University. She has experience as a Catholic school teacher, and as an early childhood educator, Alexandra holds several academic awards and achievements.

The co-lead teacher, Mrs. Kathy Ingebretson, has been in the child-care profession since 1984 and has worked in the parish nursery since 1998. She has been with the Pre-k program since it began. Kathy is STARS certified.

The School....

Is committed to the development of the whole child centered on the teachings of Christ.

Continues the long tradition of Catholic education to prepare future Christian leaders to live faith at school, in the parish and in the community.

Prepares each student to be socially responsible for self, others and the environment.

Encourages the collaboration of the parents, parish and school groups to extend and enhance learning.

"It is so wonderful to see our son thriving in a fun and nurturing environment that is combined with teaching the basic foundations of our faith," (Campbell, 2010)
